ABOUT DATALEC

Datalec Precision Installations have been instrumental in delivering world-class data centre, design, build and installations since 2012. Datalec's reputation has been built on offering its client base an agile, reliable, and precise service.

With an established reputation built on quality, flexibility, and reliability Datalec constantly seeks how to better meet and exceed client expectations.

The company holds various industry certifications and accreditations. Through careful recruitment and rigorous training Datalec's critical industry qualifications and partner programs are well maintained.

The original driving force of the business focusing on electrical, mechanical, public health and construction works associated with data hall fit-outs.

HEALTH & SAFETY

Datalec takes pride in its H&S reputation. The company invests heavily in H&S and training for its management and operatives and fully embraces best practice to ensure it remains ahead of the curve in its commitment to its employees, clients and any third parties. This is supported by ongoing internal H&S campaigns, adaptive systems and its SHE approaches in an ever-changing World and climate.

The company strives for the best H&S culture in the industry, but recognises this can only be achieved with a consistent message, approach and a genuine appetite to continually evolve its H&S culture.

Datalec's health & safety culture is strong, dynamic and ever evolving. Where best practice and innovation is used to achieve only the highest standards

OUR ENVIRONMENTAL RESPONSIBILITY

Datalec recognises the significant impact that its services can have on the environment. Rather than only achieving legal compliance, Datalec actively tries to protect the environment by promoting sustainable use of natural resources, preventing environmental pollution, participates vigorously in waste minimisation and implements best practice to reduce impacts.

Datalec is continuously looking at ways across its business to improve its environmental stance and believe this will become more critical as the world focuses on the wider issues.

Environmental management and sustainability are an integral part of our philosophy and delivery process. We continuously drive for improvement.
